

Fasteners for the Next Generation of Building.

Bolts, nuts, washers, threaded rod — and the answers to your spec sheet. Out of Benicia, California.

28,000+ SKUS

CUT IN-HOUSE

24/7 EMERGENCY

The full line, **by section.**

Every fastener we stock and machine — bolts through anchors, plus in-house threading, cutting, and bending. Send a drawing, a BOM, or a part number; we quote, source, and ship. Stock moves same-day.

01	Bolts, all twelve grades	Hex · Heavy · Structural · Lag · Carriage	03
02	Threaded Rod, cut to length	A193 B7/B8/B8M/B16 · F1554 · A307	05
03	Nuts, the whole drawer	Hex · Heavy · Stainless · Lock · Specialty	06
04	Washers, every callout	Flat · Lock · Structural · Square	07
05	Socket Products & Set Screws	Cap · Button · Flat · Cup · Square head	08
06	Anchors, all hold-types	Wedge · Sleeve · Drop-in · Anchor bolts	09
07	Materials & Specifications	ASTM grades · Specialty alloys · Anchor rod	10
08	Machine Shop & Capabilities	Threading · Cutting · Bending · CNC	11
09	Lindapter® steelwork	Hollo-Bolt® · Girder Clamps · no-weld	12
10	Contact & order desk	Phone · Will-call · Hours · 24/7 line	14

01 · Send

**Spec, BOM, or just
the grade**

Email, fax, or walk it in. PDF,
drawing, scribble — all fine.

02 · Quote

**Stock check,
written quote**

Size, grade, finish, lead time
— confirmed before
anything ships.

03 · Procure

**Sourced & cut in-
house**

Threading, cutting,
bending, drilling — handled
per job.

04 · Ship

**Same-day, or
pickup**

Will-call 6 a.m.–4 p.m. · 24/7
emergency.

Hex, heavy hex, tap.

A307 through L9. Plain, zinc, hot-dip, yellow, black phos. Metric and imperial. USA & import — both stocked.

Materials, spec'd to standard.

ASTM grades we stock by the rack, plus specialty alloys on request.

ASTM & SAE — STOCKED

A307	Grades A & B — carbon bolts & studs · SAE J429 (Gr. 2, 5, 8)
A36	Carbon structural steel
A193 / A194	All grades — alloy & stainless studs & nuts (B7, B8, B8M, B16, 2H, Gr. 7)
A276	300 & 400 Series Stainless
A325	Type I & Type III structural bolts
A354	Grades BC & BD — quenched & tempered alloy
A449	Quenched & tempered carbon & alloy steel bolts
A490	Type I & Type III high-strength structural
A563	All grades — heavy hex nuts (A, C, DH)
F593 / F594	18-8 & 300 Series Stainless

F1554 — ANCHOR ROD & BOLTS

Gr. 36	Low carbon, 36 ksi yield — replaces A307 Gr. C
Gr. 55	HSLA, 55 ksi yield
Gr. 105	Alloy, heat-treated, 105 ksi yield

SPECIALTY ALLOYS — ON REQUEST

Alloy 20

CARPENTER® 20

Sulfuric-acid service, chemical processing.

Alloy C276

HASTELLOY® C276

Severe corrosion, oxidizing & reducing media.

Alloy 400 / K500

MONEL® 400 · K500

Marine, brackish water, hydrofluoric acid.

Alloy 600-800

INCONEL® 600-800 SERIES

High-temperature, oxidation-resistant service.

Silicon Bronze

DURIUM® · EVERDUR®

Marine, electrical, architectural — non-magnetic.

Aluminum

6061 · 7075

Lightweight, non-sparking, finishing-grade — per spec / mill cert.

F436 WASHER

Threading, cutting, bending, drilling.

Special per print, in-house. A working summary of what we make and what we stock — for the long form, ask the order desk.

8.1

Threading.

Roll & cut, NC/NF/metric. Single-end, double-end, full thread to print. Up to 2".

8.2

Cutting.

Saw & shear. Bar, rod, all-thread to length. Tagged, bagged, palletized.

8.3

Bending.

Hot & cold bends — J, L, U hooks. Anchor bolts to drawing, by mark.

8.4

Drilling.

Thru-holes, tapped holes, special-per-print mods. Mill certs on request.

FASTENERS

Anchor bolts	F1554 Gr 36/55/105 · A193 B7, B8M
Structural bolts	A325, A490, TC bolts
Industrial / heavy hex	Grade 5, 8 · A193 bolting
Stud bolts & threaded rod	B7, B16, B8, B8M · cut to length
U-bolts	Standard & custom profiles
Stainless steel	304, 316, duplex
Silicon bronze	Marine & architectural
Specialty / Lindapter	Hollo-Bolt®, girder clamps

IN-HOUSE MANUFACTURING

5-axis milling	Tight as ±0.0005"
Live-tooling lathes	Bar & chuck work
Custom anchor bolt assemblies	Headed, bent, with template plates
Cut-to-length threaded rod	Chamfered in-house
Materials	Carbon, alloy, stainless, Ti, Inconel, PEEK
Inspection	CMM + laser, full first-article
Documentation	MTRs, heat numbers, FAI on request
Lead time	Prototype: 3–5 days · production scheduled at quote

Steelwork connections, without the welder.

California Fastener is a stocking distributor of Lindapter® — no-weld, no-drill structural steel fixings.

LINDAPTER® • SINCE 1934

The original girder clamp.

Established 1934, Lindapter is the pioneer of steelwork clamping — the **Girder Clamp** and **Hollo-Bolt®**. No-weld, no-drill structural connections that save the hot-work permit.

Specified across airport baggage systems, service walkways, hangars, and terminal steel — anywhere fast structural fixings save days on the schedule.

WHAT WE STOCK

- 01 **Girder Clamps** — flange-to-flange & flange-to-web, all sizes
- 02 **Hollo-Bolt®** — expansion bolts for hollow structural section
- 03 **Cavity Fixings** — Lindibolts & rail-mount accessories
- 04 **Specials** — sized to your detail with Lindapter engineering support
